## BROEN-LAB UNIFLEX™

---

### THIS IS BROEN-LAB UNIFLEX™

BROEN-LAB UniFlex™ line offers high quality and durability combined with the complete program, which adds up to low LCC (Life Cycle Costs).

The operation and the configuration of the BROEN-LAB UniFlex™ fittings are highly adapted to the requirements of modern laboratories in the educational sector.

The fittings are manufactured of the highest quality materials. The surface of laboratory fittings is treated with BROEN-LAB POLYCOAT powder coating, which makes the surface highly resistant to most chemicals, UV fading and heat.

Most BROEN-LAB UniFlex™ fittings for water are as a standard delivered with a fixed polypropylene hose nozzle and a polypropylene handle. As an option it is possible to get water fittings with an integrated check valve, which prevents backflow. The fittings are delivered with easy-to-mount anti-rotational mounting kit.

### THIS IS BROEN-LAB UNIFLEX™

BROEN-LAB UniFlex™ is a unique and patented connection, which allows customers to choose from various connection methods, such as hoses, CU, PEX or Stainless Steel pipes, without changing the valve itself. It provides unique flexibility, not only for the installer, but also for the end-user. Due to the flexibility of the system, the quick installation and savings on fittings, this system offers lower TIC (Total Installed Costs).

## BENCH MOUNTED FITTING WITH SWIVEL SPOUT

### Specifications

Handle: Polypropylene, with media indication according to EN13792  
 Spout: Full swivel action  
 Hose nozzle: Fixed Polypropylene (can be unscrewed by hand, thread: male G3/8)  
 Headwork: Rubber (wrist action lever: ceramic)  
 Opening/closing function: 2 x 360° (wrist action lever: 90°)  
 Temperature range: 0-65°C  
 Max. working pressure: 10 bar / 147 psi  
 Test pressure: 1 x working pressure  
 Weight: 1.4 kg

### Materials with media contact

Metals: Brass  
 Plastics: PP  
 Sealing: EPDM  
 Lubricant: Silicone based  
 Ceramics: Al<sub>2</sub>O<sub>3</sub> 96% (wrist action lever only)

### Ordering information

For standard configuration please refer to the item numbers below.

Other options:

- aerator
- removable polypropylene hose nozzle
- integrated non-return valve
- fixed spout (rear, left or right)
- alternative hose inlet connection / without a hose
- other inlet options (type, length)
- national approvals
- WPH (Water Potable Hot)
- WNH (Water Non-Potable Hot)

## BROEN-LAB UNIFLEX™ HOSES FOR WATER

BROEN-LAB UniFlex™ flexible hoses

BROEN-LAB offers BROEN-LAB UniFlex™ hoses as an easy way to make the installation in the laboratory where safety and efficiency are required. BROEN-LAB UniFlex™ hoses are the ideal solution where there is a higher requirement for flexibility. Installation with flexible hoses saves you time and labor • in other words reduced installation costs.

A wide range of fittings and lengths available for BROEN-LAB UniFlex™ hoses enables customers to choose the perfect hose for their application.

BROEN-LAB UniFlex™ hoses for water are manufactured of soft cross-linked polyethylene (SPX), which is approved for use with drinking water and meets all hygienic requirements. From the outside the hose is secured by a Stainless Steel braiding that ensures long service life and durability.

If you still prefer a standard way of installation with Cu, Stainless Steel, or PEX-pipes, BROEN-LAB offers a wide range of connection fittings and adaptors for pipes of different dimensions.

BROEN-LAB UniFlex™ connection fittings and adaptors for CU, Stainless Steel and PEX pipes

The total design of the system must be taken into consideration when selecting the type of BROEN-LAB UniFlex™ flexible hose or pipe for specific media. Only then products will provide safe, trouble-free operation.

### **Please always check local requirements/regulations regarding installation and maintenance of hoses/flexible pipes!**

A very high quality of materials applied for production of hoses and Stainless Steel flexible pipes, which are supplied by BROEN-LAB, and a long-time experience in making installations worldwide, combined with optimal installation conditions, may assure a lifetime for a hose to be more than 10 years. Expected lifetime can only be achieved under normal use and proper installation methods, which are described in technical specifications, i.e. max. working pressure, max. temperature, physical installation methods and other. Any nonconformity to specifications decreases the lifetime of a hose/flexible pipe.

BROEN-LAB develops, manufactures and sells Laboratory Fittings, Emergency Shower Systems and Eye Wash Systems into a broad spectrum of laboratories and industrial locations; sectors include Pharmaceutical, Food&Beverage and Academia. Our expertise and product quality ensure optimal solutions compliant to all relevant international norms setting new standards in risk mitigation in modern research and development facilities.

BROEN-LAB offers solutions that ensure the functionality, compliance, hygiene, durability and safety are of the highest priority. For more than 50 years our products have been integrated into a wide variety of workplaces, laboratories, hospitals and industrial locations, with features that are assessed and designed to be flexible, durable and compliant offering a broad range of options tailored to each location. This inherent design integrity provides confidence in the solution adopted wherever in the world these are applied.

BROEN-LAB is a collaboration partner in the design and layout of your next laboratory and it's integrated safety.

### **BROEN-LAB A/S ISO 9001 certification**

In September 1991 BROEN-LAB A/S was certified according to ISO 9001 as one of the first Danish companies. The certification was carried out by Bureau Veritas, Denmark, for our Danish site in Assens.

The quality management system of BROEN-LAB A/S now complies with detailed specifications laid down by the internationally acknowledged EN ISO 9001:2015. This certification will further contribute to reputation for quality and reliability of BROEN-LAB A/S.

### **BROEN-LAB A/S ISO 14001:2015 certification**

In December 2022 we got certified according to ISO 14001 in Environmental certification. The new certification was carried out by Bureau Veritas, Denmark, for Danish site in Assens. The Environment ISO14001 management system of BROEN-LAB A/S is included in internationally acknowledged EN ISO 9001:2015. Both certifications furthermore contribute to reputation for quality and reliability of BROEN-LAB A/S.
